**Comments:** Rosie,  
We hired Freelite to install a 10" tubular skylite in our guest bathroom. The mechanic who showed up was right on time. He didn't waste any time, and went right to work. He explained to me where the skylite had to go because of the truss spacing and location. He then went about his business and he did a great job. He was quick, efficient, very clean and pleasant. I wouldn't have any hesitation to hire them again. As a matter of fact, I am getting a price on changing out two old windows with new fiberglas fixed insulating windows by these guys.
