Question or Comment

Hi, I've been needing to let you know about your great contractor referrals as I've contacted three now.

Two years ago our AC went out in July on a Sunday morning. I jumped on your site and called the first two contractors and just got answering machines. Then I called Chuck Knight and he answered the phone, on Sunday. Since we were desperate, he offered to come by that day, on Sunday, and work on the AC. We decided that we had a place to go and that we could wait until Monday, but just that he would come on Sunday was awesome. He got us fixed up on Monday and the AC ran great after that. I had him that fall for a normal service and he was great to work with. I plan on calling him again for another service this fall as well as possibly buying a new AC.

We also used Desert Sun Pools to install a Salt Chlorinator on our pool. That was about the best thing we've done for our pool and budget. When the chlorinator was installed, we dumped in the salt and besides cleaning leaves out of the baskets, I haven't had to do anything to the pool in almost 6 months and the chlorine level has stayed great and the water looks awesome.

I also had Robin out from Water Treatment Technologies for a quote and he was great to work with as well. We haven't purchased a system yet, but we may next spring and if we do, it will be through him.

Thanks again for the referrals, it's great to have you here in the valley!
