Distinctive kitchen remodel

An open environment between the kitchen and family room was created by removing the peninsula and replacing it with a larger island, creating more storage space. New cabinets with soft close doors and drawers were installed with under cabinet LED lighting. A neutral quartz countertop material with just the right amount of sparkle pulls the thoughtful details of this kitchen together and the contrasting darker island countertop lends a nice contemporary look along with the clean countertop edge detail.

Thoughtful and elegant details

1. Installed Cherry Spice cabinetry with LED under cabinet lighting.
2. New decorative stainless steel hood over new range.
3. Glass backsplash wall tile updated to accent the new cabinets and countertops.
4. Quartz Iced White countertops installed.
5. Elkay quartz composite under mount sink in gray to accentuate the cabinets, tops and stainless appliances.
6. Frosted glass doors installed in several cabinet doors add a decorative accent and display.
7. Enlarged the island to include cabinetry for large pots and pans with drawers for extra storage and black quartz countertop for decorative accent piece.
8. The travertine floor tile was honed and polished.
9. Extra deep drawer space for Tupperware, pots and pans storage.
10. Relocated the microwave to a drawer style to enable the new range hood to be a focal point.
11. Converted the desk area to a bar area with wine refrigerator.
