Premium kitchen remodel

The original kitchen configuration with the low slung ceiling, yellowing lights and heavy wood made this space look dark and crowded. By opening the load bearing solid wall towards the dining room, removing the old domed ceiling and reframing the soffits, this kitchen is now setting the stage for the beautiful white cabinetry with the contrasting anthracite granite countertops. The LED lighting and the under-cabinet lighting is now placed to insure all working areas are well lit. The redesigned space and layout enables a more natural work flow and makes this kitchen a pivotal point in the house.

Excellent finishes and details

1. New Shaker style white cabinetry with dimmable LED under cabinet lighting.
2. Arabesque pattern porcelain tile with custom made accents.
3. Anthracite quartz countertop.
4. Apron-front fireclay farmhouse sink.
5. Raised ceiling and reconfigured soffits with new LED recessed lighting.
6. Wood plank porcelain tile.
7. Part of the solid wall removed for an open view into the dining room and garden.
8. Smooth electric cooktop with low profile range hood.
9. Double wall oven and microwave with stainless steel finish.
10. French door refrigerator with freezer and ice maker.
11. Cut out window allows for easy communication between the family room and kitchen.
