Question for Rosie

Knight AC LLC Wow! No question, an endorsement. You might remember that Knight AC worked on my mother-in-law's AC back in April. The first visit didn't go well, but Mister Knight came out the next day, and turned the experience around. Well the fan they changed out started making noise. We weren't sure how the company would react to our phone call, but what a wonderful experience. We were greeted on the phone very professionally, after reviewing their records, they promised to move our visit to the front, due to the elderly age of my mother-in-law. They came out promptly, performed the work professionally, and notified us that the work was covered under the fan's warranty, and that the call was free. So, if anyone needs a great AC technician team, I highly recommend Knight AC, LLC, it is a team that treats you fairly, with respect, and stands behind their work. I am not easily impressed, so for them to make this big of an impression, you know they went above, and beyond. Richard Garcia
