

Sewing machine cabinet

Dear Don,
January 14th was a memorable day for me. BOTH the cabinet and sewing machine were ready! I thought I could go four weeks without an electric machine, but I was SO wrong. Thank you, Don, for doing a beautiful job. I barely recognized the piece. This cabinet was just another item we given you--highboy, side table, reupholstering a sofa--where you've done superb work.

I apologize for not writing sooner and thanking you. During that time, however, I scanned your card and emailed it to several people, including our MetLife insurance agent. Since it was another insurance company that put us onto you, I thought our current one should know of you to help other clients when an unfortunate disaster occurs.

Thank you for making my day!
Have a great evening.

Cheers,
Lauren
