

Dear Rosie on the House:

I wanted to commend Kirk Development for their performance on our recent project. As you know, we had a flooding problem in our guest house with a significant amount of water damage. You recommended Kirk Development to me to do the repair work. As you can recall, I have had very bad experiences with several of the contractors that I have used on both commercial and residential projects. That was not the case with Kirk Development.

For the first time in my experience, Kirk finished the job on time and under budget. The quality of work, reliability, communication and follow through was exceptional. I would like to recognize Barry Flemming and Nathan, the superintendent on our job, for their excellent work. I thought that a testimonial as to their excellent performance was in order. Thanks again for your recommendation of this outstanding contractor.

Sincerely,

Robert D. Griego, MD

RDG/tff
