**Question for Rosie:** This is a testimonial for New West Shutters, Blinds and Shades. I have several issues in my home with my window treatments including a need for additional room darkening, light control, & heat control.

I have had a few other people come out to try to help me figure out what I needed. I have been trying to address these needs without sacrificing my budget or installing products that clashed with my décor. In every case the other service providers tried to push me into what they wanted me to buy which did not always match either my budget or décor needs.

However, when Rod from New West Shutters came out I was immediately comfortable with him. There was a dialogue and he worked with me to locate the best solution at various price points. It was wonderful to have someone to brainstorm with. In the end, every one of his recommendations was spot on and we are addressing my needs in phases.

Today he installed room darkening blinds over my double cell blinds all fitting within the restricted space of my cornices. The roller shades are of a great quality and operate well even with my very tall windows. The rooms look great when the shades are down and I am extremely happy with the end product.

Not only is Rod helpful, cooperative, knowledgeable, and professional, but both he and his wife Katy are truly pleasant people to work with. I assure you, you will enjoy having them in your home.

If you ever have any need for blinds, sunscreens, or shutters, you simply MUST call Rod first. I will call no one else. He will steer you to the right solution and you will be happy with the result and the price you are paying for the product.
